EXHIBIT A

“b. 50% Renewable - Electricity where a minimum of 50% of the energy used by the aggregated accounts will be offset by Renewable Energy Credits. Renewable Energy Credits shall be Green-e certified and/or the RECs will be sourced through PJM-registered renewable sources while also including the lowest price that supports a “Utility Price Match” meaning the ARES will be required to match future Ameren tariff rates in the event the Ameren tariff rates decrease in price below the Program price per kilowatt-hour.”
